Table 17	Classification Level By Institution	40

There are two tables for each of five characteristics, one by institution and one by sex and type of commitment. This eliminates the need for separate reports for felons and civil narcotic addicts. (See tables 1-11.) The remaining characteristics are presented on the male felon population only by institution. (See tables 12-17.)

Cases with incomplete or "missing" data are included in the tables, but are excluded from the total in order to compute a meaningful percentage.
